ARCHITECT OF THE CAPITOL

*U.S. Capitol Building, Washington, DC 20515
Phone, 202-228-1793*

Architect of the Capitol

ALAN M. HANTMAN

The Architect of the Capitol is responsible for the care and maintenance of the U.S. Capitol and nearby buildings and grounds while implementing reconstruction and landscape improvement projects according to the original intent of the Capitol's designers.

The Architect of the Capitol is charged with operating and maintaining the buildings of the Capitol committed to his care by Congress. Permanent authority for these functions was established by the act of August 15, 1876 (40 U.S.C. 162, 163). The Architect's duties include the mechanical and structural maintenance of the Capitol, the conservation and care of works of art in the building, the upkeep and improvement of the Capitol grounds, and the arrangement of inaugural and other ceremonies held in the building or on the grounds. Legislation is enacted from time to time providing for additional buildings and grounds to be placed under the jurisdiction of the Architect of the Capitol.

In addition to the Capitol, the Architect is responsible for the upkeep of all of the congressional office buildings, the Library of Congress buildings, the U.S. Supreme Court building, the Thurgood Marshall Federal Judiciary Building, the Capitol Power Plant, the Capitol Police headquarters, and the Robert A. Taft Memorial. The Architect performs his duties in connection with the Senate side of the Capitol, the Senate office buildings, and the operation of the Senate restaurants subject to the approval of the Senate Committee on Rules and Administration. In matters of general policy in connection with the House office buildings and the Capitol

Power Plant, his activities are subject to the approval and direction of the House Office Building Commission. The Architect is under the direction of the Speaker in matters concerning the House side of the Capitol. Also, the Architect of the Capitol serves as the Acting Director of the U.S. Botanic Garden under the Joint Committee on the Library.

Until 1989, the position of Architect of the Capitol was filled by Presidential appointment for an indefinite term. Legislation enacted in 1989 provided that the Architect be appointed by the President for a 10-year term, with the advice and consent of the Senate, from a list of 3 candidates recommended by a congressional commission. Upon confirmation by the Senate, the Architect becomes an official of the legislative branch as an officer and agent of Congress and is eligible for reappointment after completion of his term.

The Architect, whose original duties were limited to designing and supervising the construction of the Capitol, has assumed additional responsibilities for activities that have been assigned to the office by Congress. Today, in light of the widespread activities under the jurisdiction of the Architect of the Capitol, the administrative function challenges the architectural and engineering functions of the office.

Projects carried out by the Architect of the Capitol in recent years include renovation and restoration of the Statue of Freedom, the Terrace, Courtyards, Rotunda, and other areas in the Capitol, and the Library of Congress; procurement and installation of television and broadcasting facilities for the House and Senate chambers and hearing rooms; improvements to building utility, energy-management, and security systems; installation of a Senate subway system; development and implementation of the Legislative Branch Telecommunications Network; plans for the complete renovation of the U.S. Botanic Garden Conservatory; the design of a National Garden adjacent to the Conservatory; and plans for a new Capitol Visitor Center. The Architect also oversaw the design and construction of the Thurgood Marshall Federal Judiciary Building for the U.S. courts. Ongoing

conservation/renovation projects include the Brumidi corridors in the Capitol and a substantial barrier-removal program throughout the Capitol complex.

The Architect of the Capitol also serves as a member of numerous governing or advisory bodies, including: Capitol Police Board, Capitol Guide Board, House of Representatives Page Board, District of Columbia Zoning Commission, Advisory Council on Historic Preservation, National Capital Memorial Commission, Art Advisory Committee to the Washington Metropolitan Area Transit Authority, and the National Institute for Conservation of Cultural Property. The Architect is an *ex officio* member of the U.S. Capitol Preservation Commission and the Commission on the Bicentennial of the U.S. Capitol. In addition, he serves as the Coordinator of Civil Defense for the Capitol complex.

For further information, contact the Office of the Architect of the Capitol, U.S. Capitol Building, Washington, DC 20515. Phone, 202-228-1793.

JEFFREY P. COOPER-SMITH

The United States Botanic Garden is an institution of public education dedicated to demonstrating the aesthetic, cultural, economic, therapeutic, and ecological importance of plants to the well-being of humankind.

The U.S. Botanic Garden carries out its mission by presenting artistic displays of plants, exhibits, and a program of educational activities; promoting botanical knowledge through the cultivation of an ordered collection of plants; fostering plant conservation by acting as a repository for endangered species; and growing plants for the

beautification of the Capitol complex. Uniquely situated at the heart of the U.S. Government, the Botanic Garden seeks to promote the exchange of ideas and information relevant to this mission among national and international visitors and policymakers.

The Conservatory, one of the largest structures of its kind in this country,
